Good graphics and good gameplay. Reminds me of darksouls :). One of the best games made this year :D Pretty challenging, so don't buy this if you don't like challenging games :) Add me if you like minion :). You get what you paid for, 5K achievements at minimum price. If you’re an achievement hunter looking to increase the number of achievements on your profile showcase, then I highly recommend buying this. Else don’t waste your money. This is not a game, it’s just a way of distributing achievements.. 3\/10!

Open game and leave running = all achievements.. Even if I am at the last level of this game I only unlocked 25/5000 achievements.

- Achievements blocked
- Poor and short gameplay
- It crashes if you want to go back to main menu (every time)
. 3\/10!

Open game and leave running = all achievements.. Achievements.
Easy 100% / 90min.
Just launch the game and Idle!
